November 10, 2022

The Honorable Board of Trustees
Spring Independent School District
16717 Ella Blvd.
Houston, Texas 77090

Dear Board Members and Citizens:

The Annual Comprehensive Financial Report of the Spring Independent School District (the “District”, “Spring ISD” or “SISD”), Houston, Texas, for the fiscal year ended June 30, 2022, is submitted herewith. The Annual Comprehensive Financial Report is management’s report of financial operations to the Board of Trustees (the Board), taxpayers, grantor agencies, employees, the Texas Education Agency (TEA), and other interested parties. The government-wide financial statements in this report provide an overview of the District’s governmental activities, while detailed fund financial statements describe specific activities of each fund group used in accounting for the District’s financial transactions. This report was prepared by the District’s Office of Financial Services in accordance with generally accepted accounting principles (GAAP) and reporting standards as promulgated by the Governmental Accounting Standards Board (GASB).

Responsibility for the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the District. We believe that the data, as presented, is accurate in all material respects; that information is presented in a manner designed to set forth fairly the financial position and results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the District’s financial activities have been included. In order to provide a reasonable basis for making these representations of responsibility, management of the District has established a comprehensive internal control framework that is designed to protect the District’s assets from loss, theft or misuse. Additionally, the internal control framework is designed to compile sufficient reliable information for the preparation of the District’s financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District’s comprehensive framework of internal controls has been designed to provide reasonable assurance rather than absolute assurance that the financial statements will be free from material misstatement. To the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The financial statements of the District have been audited by Whitley Penn, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2022, are free of material misstatement. The independent audit involves examining, on a test basis, evidence

supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2022, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements is part of a broader, federally mandated "Single Audit" designed to meet the special need of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the District's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Reporting Entity

An act of the Thirty-Eighth Legislature of the State of Texas in 1923 provided the statutory authority for the creation of independent school districts in the State of Texas. The District was established and incorporated in 1935 by the combination of two separate school districts, the Spring School District and the Harrell School District. As an independent school district, a seven-member board of trustees elected from residents of the District constitutes the governing body. Based on legislative authority codified in the Texas Education Code, the trustees (1) have exclusive power to manage and govern the District; (2) can acquire and hold real and personal property; (3) shall have power to levy and collect taxes and to issue bonds; (4) can contract for appointed officers, teachers, and other personnel as well as for goods and services; and (5) have the right of eminent domain to acquire real property. The District is not included in any other governmental reporting entity and the District is not financially accountable for any other organizations; therefore, no component units are included within the reporting entity.

As required by GAAP, the financial statements of the reporting entity include those of the District (the primary government), an independent reporting entity clearly within the criteria established by GASB.

The District encompasses approximately 58 square miles and is located in northern Harris County, Texas, approximately 20 miles north of downtown Houston. Interstate Highway 45 (I-45) traverses the District north to south, and Farm-to-Market Road 1960 (FM 1960) bisects the District east to west approximately at its midpoint. The unincorporated community of Spring is located in the District.

The District's system presently includes twenty-six elementary schools, seven traditional middle schools, two school-of-choice middle schools, three traditional high schools and three ninth-grade centers, a school-of-choice high school, a virtual school, and an early college academy. The ages of the school buildings range from less than two years to fifty-four years.

The District is one of twenty-one public school districts located in Harris County. It provides a program of public education from pre-kindergarten through grade twelve. The purpose and responsibility of the District is to provide a thorough and efficient educational system for the children enrolled in public schools within its boundaries whereby each child has access to programs and services that are appropriate to his or her educational needs. In addition to the regular educational program, the District offers programs in areas such as career and technical education, special education, gifted and talented, bilingual, and compensatory education. All District schools are fully accredited by the TEA and the Southern Association of Colleges and Schools.

The District's average daily attendance (ADA) has been declining over the last few years. ADA was 28,662 in 2022 and 30,464 in 2021, a decrease of 1,802 and a decrease of 1,829 students respectively. ADA has been significantly impacted by the ongoing COVID-19 pandemic.

Long-term Financial Planning

The enrollment projection for 2022-2023 anticipates a flat enrollment. However, given the unprecedented uncertainty created by the COVID-19 pandemic which caused global disruptions beginning in early 2020 and is ongoing, there is no reliable prediction of enrollment for the immediate future. Currently, there are 591 students per square mile in the District.

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures. The budget must be adopted by the Board of Trustees at a scheduled meeting after giving ten days public notice of the meeting. The District annually adopts a legally authorized appropriated budget for the General Fund, Debt Service Fund, and Child Nutrition Fund. Prior to July 1st, the budget is legally enacted through passage of a resolution by the Board. The appropriated budget is prepared by fund, function, and campus/department. Transfers of appropriations between campuses/departments require the approval of the District's management. However, transfers of appropriations between functions require the approval of the Board as recommended by the Superintendent. The District's approach to operating in a restricted funding environment with increasing academic standards has been to ensure that the budget process is led by data driven decisions and guided by the Five-Year Strategic Plan. The major budget priorities are to ensure financial stability in an ever-changing economic environment while providing engaging learning opportunities for staff and students.

Organization Purpose

Vision Statement

This statement reads, "Spring Independent School District will be a district of choice known for high quality academics with innovative and specialized programs that meet the needs of all students in a positive learning environment."

Mission Statement

The mission of the Spring Independent School District is to prepare students to be lifelong learners, critical thinkers, and responsible citizens who display good character – ready to contribute, compete, and lead in today's global society.

Guiding Principles

Updated in 2022, the district's guiding principles are a set of assumptions or beliefs that focus the work of all leaders in the district. Any and every action outlined in the strategic plan can be traced back to these guiding principles.

1. Every educator will hold themselves accountable to high-quality teaching and promoting a culture of literacy across all disciplines.
2. Every employee will support students to learn in safe and affirming environments.
3. Every school and department will strategically adapt based on the results and community input.
4. Every district resource will center on student learning with a focus on equity and accountability.

Core Values

- We base our decisions on what is best for our students.
- We strive for excellence in all we do.
- We build trust through integrity and lead by example.
- We communicate openly.
- We value diversity and treat everyone with dignity and respect.
- We win as a team.

Graduate Portrait

Every student will be...

A lifelong learner, critical thinker and responsible citizen who displays good character – ready to contribute, compete and lead in today's global society.

Equity

We will champion **Equity** explicitly and consistently in the way we serve students, design supports, and allocate resources. It is the underlying, uniting thread woven through all the work we do in Spring.

North Star Goal

By 2027, Spring ISD will increase the percentage of students in A/B schools from 27% to 50% and decrease the number of students in D/F schools from 46% to 0%. In other words, by 2025, Spring ISD will increase the number of A/B campuses from 12 schools to 19 schools and decrease the number of schools that score D/F from 16 to 0.

Strategic Plan Goals

- **EQUITY:** We will increase the equitable allocation of resources in order to improve equitable practices.
- **STUDENT OUTCOMES:**
 - We will increase the percentage of students achieving growth and meeting or exceeding grade level expectations on standards-based assessments.
 - We will increase the number of students graduating Spring ISD college and career ready.
- **OPPORTUNITIES:** We will increase the percentage of students successfully enrolling in and completing high quality specialty programs and pathways in Spring ISD.
- **LEADERSHIP:** We will increase the number of positions filled with high-quality, developed staff that are demographically representative of the student body.
- **WELL-BEING:** We will increase the percentage of staff and students that report an improved feeling of physical, emotional, and digital safety.
- **ENGAGEMENT:** We will increase the percentage of families that feel a sense of belonging in Spring ISD.

Education Foundation

The District receives support from the Spring Education Foundation (the Foundation), a non-profit organization. The Foundation seeks funds to support initiatives related to the District's Five-Year Strategic Plan. The goal of the Foundation is to raise funds for teacher initiative projects and for campus initiative projects that attempt to improve student achievement and success. Grant awards are up to \$1,000 for teacher or classroom projects, up to \$5,000 for campus teams, and up to \$10,000 for multi-campus projects. During 2021-2022, grants were awarded totaling \$44,684 to improve services to students. The Foundation has awarded over \$1,200,000 in grants since it began in 1993. The Foundation does not meet the criteria for inclusion in the District's financial statements under the provisions of GASB Statement No. 39.

Economic Condition and Outlook

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

The Houston metropolitan area ranks as the sixth-largest metropolitan area in the country. Demographically and economically, the region has rapidly diversified into a cosmopolitan, international center of business and industry. The District must be prepared to meet the challenges of educating an increasingly heterogeneous student population. Furthermore, in light of the recent growth of service-sector jobs in the Houston area, these children must be prepared for careers requiring high-level skills in mathematics, science, and technology in addition to solid reading and writing skills.

The COVID-19 pandemic created global disruptions beginning in early spring 2020 and is currently ongoing. In an effort to effectively manage the outbreak, restrictions were implemented which caused businesses and schools to close for an extended period of time. Though most restrictions have been lifted, several businesses including the education sector have struggled to return to pre-pandemic operations. The impact of the closures and restrictions will be felt for many years to come and will leave a lasting impression on the world's economy. Due to the unprecedented uncertainty of the length and duration of the pandemic, long-term projections related to the economic condition and outlook will be challenging to predict.

Local Economy

The District is primarily commercial in character with numerous shopping centers, automobile dealerships, hotels and combination business park/multi-family developments that have been built along I-45 and FM 1960. ExxonMobil's state-of-the-art complex is located on a 385-acre wooded site within the boundaries of Spring ISD. It contains multiple low-rise office buildings, a laboratory, conference and training centers and facilities such as child care, a wellness center and other employee amenities. The campus houses more than 10,000 ExxonMobil personnel devoted to energy exploration, refining, chemicals, corporate law, finance, and other aspects of the business. With a value of over \$1 billion in tax year 2021, the ExxonMobil campus makes up 6.24% of the District's tax base.

The following is a summary of the tax base by category for fiscal years 2022 and 2021:

<u>Type of Property</u>	<u>2022</u>		<u>2021</u>	
	<u>Amount</u>	<u>%</u>	<u>Amount</u>	<u>%</u>
Residential	\$8,287,672,440	43.63%	\$7,541,517,724	41.50%
Commercial, Industrial, and Multi-Family	10,043,197,921	52.88%	9,979,377,009	54.92%
Acreage	69,237,209	0.36%	64,065,163	0.35%
Vacant Lots and Tracts	397,595,313	2.09%	401,726,041	2.21%
Utilities	184,390,964	0.97%	171,743,065	0.95%
Mineral Reserves	13,375,296	0.07%	12,324,839	0.07%
Total Assessed Value	18,995,469,143	100%	18,170,753,841	100%
Less: Exemptions	(2,767,505,532)		(2,756,580,800)	
Actual Taxable Value	<u>\$16,227,963,611</u>		<u>\$15,414,173,041</u>	

The percentage mix of property values by category in the District has been consistent over the past few years.

Residential Properties

For the 2022 fiscal year, the Harris County Appraisal District listed 45,388 single-family residences. This compares to 44,667 dwellings in this category for last year. Developers continue to develop new subdivisions throughout all geographic areas. The 721 new residences occurred throughout the District.

The average actual taxable value of the residential property in the 2022 fiscal year was \$158,486 which compares to \$145,257 in the 2021 fiscal year. This represents an 9.11% increase in the average actual taxable home value from the prior year. During the 2022 fiscal year, the assessed

value for residential properties increased \$746,154,716 or 9.89% over the previous year.

Commercial, Industrial and Multi-Family Properties

We have seen an increase in commercial growth due to market value increases in the following property types: multi-family, retail multi-occupancy, convenience food market and neighborhood shopping centers. During the 2022 fiscal year, the assessed value for commercial properties increased \$63,820,912 or 0.64% over the previous year.

Acreage, Vacant Lots and Tracts

The value of acreage in the District increased. The total number of vacant lots continuously changes due to new subdivision sections.

Utilities

The assessed value for utilities increased by \$12,647,899 or 7.36%. The increase was primarily caused by the increase in the value of railroads, pipelines and electric companies.

Mineral Reserves

The assessed value for the various mineral reserves experienced an increase of \$1,050,457 or 8.52% over the previous year primarily due to revaluation and new mineral leases.

Financial Reporting Awards

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ASBO Certificate of Excellence

The District received the Association of School Business Officials' (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2021. This award certifies that the Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021, substantially conforms to the principles and standards of financial reporting as recommended and adopted by the ASBO. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Excellence Program's requirements and we are submitting it to the ASBO to determine its eligibility for another certificate.

Acknowledgements

The preparation of this report on a timely basis could not be accomplished without the dedicated services of the entire staff of the Office of Financial Services. Also, we would like to express our appreciation to other divisions, departments, schools, and individuals who assisted in its preparation. Moreover, we wish to thank and express appreciation to the administrators and other employees of the District for their interest and support in planning and conducting the financial affairs of the District in a responsible and progressive manner.

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Spring Independent School District
Houston, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Spring Independent School District (the "District"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison information, pension information, and other-post employment benefit information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Board of Trustees
Spring Independent School District
Houston, Texas

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining fund financial statements, required Texas Education Agency (TEA) schedules, and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements, required TEA schedules, and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

SPRING INDEPENDENT SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Spring Independent School District's (the District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2022. It should be read in conjunction with the District's financial statements.

Financial Highlights

On the government-wide financial statements, the liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources of the District at June 30, 2022, by \$7,628,875. Of this amount, (\$134,869,363) is unrestricted.

At June 30, 2022, the District's governmental funds financial statements reported combined ending fund balances of \$204,961,757. Of this amount, \$8,539,010 is non-spendable in the General Fund, \$5,000,000 is committed, \$40,796,750 is assigned and \$58,186,196 is unassigned and available to spend at the District's discretion.

At the end of the current fiscal year, total fund balance for the General Fund was \$112,521,956 or 36.82% of total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

All the District's services are reported in the government-wide financial statements, including instruction, student transportation, general administration, school leadership, and child nutrition services. Property taxes, state and federal aid, and interest and investment earnings finance most of the activities. Additionally, all capital and debt financing activities are reported here.

The government-wide financial statements are designed to provide readers a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Fund Financial Statements

The District uses fund accounting to record and report specific sources of funding and spending for particular purposes. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds. The fund financial statements provide more detailed information about the District's most significant funds – not the District as a whole.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Most of the District's activities are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available. However, unlike the government-wide financial statements, governmental fund financial statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information in Figure A-1 that explains the relationship (or differences) between them.

The District's governmental funds are the General Fund, Debt Service Fund, Elementary and Secondary School Emergency Relief Fund (ESSER) III, and Non-Major Governmental Funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, and ESSER III, each of which is considered to be a major fund. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary funds are used to account for operations that are financed similar to those found in the private sector. The District maintains an individual internal service fund for health insurance coverage. *Internal service funds*, one type of proprietary fund, are an accounting device used to accumulate and allocate costs internally among the District's various funds and functions. Because this service predominantly benefits governmental functions, it has been included within governmental activities in the government-wide financial statements.

Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations and/or other funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The District's fiduciary fund is considered to be a custodial fund which accounts for the District's Student Activity Funds. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets.

Notes to the Basic Financial Statements

The financial statements also include notes that provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes to the basic financial statements, this report also presents required supplementary information concerning the District's compliance with its General Fund budget and its progress in funding its obligations to provide pension and other post-employment benefits to its employees.

The combining and individual fund statements and schedules referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information.

The statements are followed by a section of other supplementary information that further explains and supports the information in the financial statements. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements. Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District government they cover and the types of information they contain.

Figure A-1 Major Features of the District's Government-wide and Fund Financial Statements

Type of Statements	Government-wide	Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire District's governmental activities (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary	Activities the District operates similar to private business: self-insurance	Instances in which the District is the trustee or custodian for someone else's resources: student activity funds
Required financial statements	Statement of net position	Balance sheet	Statement of net position	Statement of fiduciary net position
	Statement of activities	Statement of revenues, expenditures and changes in fund balances	Statement of revenues, expenses and changes in net position and statement of cash flows	Statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and custodial in nature
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term
Type of inflow/outflow	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

Government-wide Financial Analysis

The District's liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$7.6 million at June 30, 2022, which is a increase in the net position of \$34.7 million compared to last fiscal year.

Figure A-2 The District's Net Position

	<u>Governmental Activities</u>	
	2022	2021
Current and other assets	\$260,322,770	\$252,023,229
Capital assets	757,717,550	783,397,365
Total Assets	1,018,040,320	1,035,420,594
 Total deferred outflows of resources	 73,204,373	 73,372,916
 Current liabilities	 57,150,216	 58,374,063
Noncurrent liabilities	889,618,843	983,396,425
Total Liabilities	946,769,059	1,041,770,488
 Total deferred inflows of resources	 152,104,509	 109,350,560
 Net Position:		
Net investment in capital assets	53,196,521	44,534,372
Restricted	74,043,967	66,374,930
Unrestricted	(134,869,363)	(153,236,840)
Total Net Position	<u>(\$7,628,875)</u>	<u>(\$42,327,538)</u>

The District's net position is comprised of the following elements as illustrated in Figure A-2: *Net Investment in Capital Assets* \$53.2 million reflects the District's investment of \$757.7 million in capital assets (e.g., land, construction-in-progress, buildings and equipment) less the outstanding debt used to acquire those assets.

The second element of net position shown in Figure A-2 is *Restricted*, which is used to segregate the net position on which external constraints have been placed (e.g., constraints imposed by creditors, grantors or by law). The District is reporting a balance of \$74.0 million which represents balances for debt service, federal and state programs, and local grants.

The third element of net position is *Unrestricted*, which consists of the net position that does not meet the criteria of the other two elements described above. The District is reporting a balance of (\$134.9) million in this category.

Changes in Net Position

The District's total revenues for the fiscal year ended June 30, 2022, were \$494,756,341. A significant portion of the District's revenue (41.49%) comes from taxes. State aid and other grant revenues represent 32.19%, while only 2.12% relate to charges for services (See Figure A-3). The total cost of all programs and services was \$460,057,678 of which 51.45% is for instruction and instructional-related services (See Figure A-4).

Figure A-3 Sources of Revenue for the Fiscal Year Ended June 30, 2022

Figure A-4 Expenses by Major Function for the Fiscal Year Ended June 30, 2022

Governmental Activities

Governmental activities increased the District's net position by \$34,698,663 for the fiscal year ended June 30, 2022. The following table presents the changes in the District's net position for the fiscal years ended June 30, 2022 and 2021:

Changes in the District's Net Position

	<u>Governmental Activities</u>	
	<u>2022</u>	<u>2021</u>
Revenues

Total governmental activities	<u>460,057,678</u>	<u>472,880,356</u>
Change in net position	34,698,663	(23,335,796)
Prior Period Adjustment - GASB 84 implementation		67,622
Beginning Net Position	<u>(42,327,538)</u>	<u>(19,059,364)</u>
Ending Net Position	<u><u>(\$7,628,875)</u></u>	<u><u>(\$42,327,538)</u></u>

The increase in revenues is primarily due to ESSER III funds provided to help safely reopen and sustain the safe operation of schools and address the impact of the coronavirus pandemic on students.

The decrease in expenses is primarily due to employee vacancies and lower construction-related cost as projects funded by the 2016 bond program are substantially complete.

The following table presents the cost of each of the District's largest functions as well as each function's net cost for the fiscal year ended June 30, 2022, (total cost less charges for services generated by the activities and operating grants and contributions). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all governmental activities this year was \$460,057,678.
- The amount of the cost that was paid by those who directly benefited from the program was \$10,493,521.
- The amount paid by grants and contributions was \$117,182,744.
- The amount that our taxpayers paid for these activities through property taxes was \$205,282,695.

Net Cost of Selected District Functions
(in millions of dollars)

	2022		2021	
	<u>Total Cost of Services</u>	<u>Net Cost of Services</u>	<u>Total Cost of Services</u>	<u>Net Cost of Services</u>
Instructional	\$236.7	\$156.7	\$257.7	\$210.5
Plant maintenance & operations	\$40.4	\$38.8	\$46.6	\$45.4
Interest and fiscal charges	\$25.8	\$24.8	\$28.7	\$27.7

Financial Analysis of the District's Funds

The District's accounting records for general governmental operations are maintained on a modified accrual basis as prescribed by the Texas Education Agency in the *Financial Accountability System Resource Guide*, with the revenues being recorded when available and measurable to finance expenditures of the fiscal period. Expenditures are recorded when services or goods are received and the fund liabilities are incurred, except for outstanding long-term debt. The general governmental operations include the following funds: General, Debt Service, Capital Projects, and Special Revenue.

Revenues for governmental funds totaled \$486,479,545 for the fiscal year ended June 30, 2022, an increase of 9.06% over the prior fiscal year. The increase is due to the addition of ESSER III funds provided to address the ongoing impact of the Covid-19 pandemic.

Expenditures for governmental funds totaled \$474,295,101 during the fiscal year ended June 30, 2022, a decrease of 5.77% from the prior fiscal year. The total expenditures decreased primarily due to considerably less construction projects being completed in 2021-22 compared to 2020-21. This decrease is also due to employee vacancies particularly in teacher and bus driver positions.

The Debt Service Fund had a total fund balance of \$73,149,824 all of which is restricted for the payment of debt service. The District makes semi-annual debt service payments in February and August each year. The total debt service payments including fees for the fiscal year ended June 30, 2022, was \$67,218,293. There was a decrease in fund balance of \$135,790.

The ESSER III Fund has no fund balance as all revenues are received upon request to the Texas Education Agency for reimbursement of allowable expenditures.

General Fund Budgetary Highlights

Over the course of the year, the District revised its budget three times. These adjustments resulted in an increase in the final budgeted appropriations and other financing uses of \$5,482,171 over the original budget. The variance in final budgeted expenditures versus actual expenditures is primarily due to savings in salary expenditures due to allocated but unfilled positions and the supplanting of instructional salaries using ESSER II and III funds.

Final budgeted revenues and other financing sources were increased during the year by \$5,391,379 over the original revenue budget. The variance in the final total budgeted revenues versus actual revenues is primarily due to lower than anticipated property tax collections as well as lower than anticipated state aid due to low student attendance which is a result of the ongoing Covid-19 pandemic.

The difference between the original budget and the final amended budget of the General Fund can be briefly summarized below:

**Appropriations
and Other
Financing Uses**

\$1,861,015	Increase in miscellaneous appropriations resulting from 2020-2021 rollover encumbrances
1,362,304	Increase for the relocation and renovation of T-Buildings to accommodate student growth at Marshall Elementary School and renovations to Wunsche and Eickenroht
1,284,752	Increase due to mid-year raises for bus drivers to bring the starting pay to \$19 per hour to aid in recruitment efforts
327,752	An increase to support the Spring High School safety program
255,361	Increase for targeted recruitment and incentives for staff appreciation and campus attendance
238,319	Increase for the use of the Special Education Supplement
152,668	Miscellaneous increases to other appropriations to account for use of insurance proceeds, donations and miscellaneous receipts
\$5,482,171	Total Appropriations Increase

**Revenues and
Other Financing
Sources**

\$6,331,402	Miscellaneous federal revenue related to indirect costs and an increase in School Health and Related Services (SHARS) reimbursement
622,061	Miscellaneous net increases in other estimated revenues to account for use of donations, sale of property, and other miscellaneous receipts
238,319	An increase in other revenues related to the Special Education Supplement provided as a result of the 87th Texas Legislative session
(125,750)	Decrease in anticipated interest earnings
(674,653)	A net decrease in state aid primarily due to the decrease in the Foundation School Program (FSP) to adjust to anticipated revenue for actual student enrollment and attendance
(1,000,000)	Decrease in property tax revenue to adjust to anticipated collections
\$5,391,379	Total Revenues and Other Financing Sources Increase

Capital Assets and Debt Administration

Capital Assets

The District has invested a net \$757.7 million in a broad range of capital assets, including land, buildings and improvements, furniture and equipment, and vehicles. This amount represents a net decrease (including additions and deductions net of accumulated depreciation) of \$25.7 million from last year.

District's Capital Assets (net of depreciation)

	2022	2021
Land	\$79,847,596	\$79,847,596
Construction-in-progress	254,943	17,405,314
Buildings and improvements	635,925,836	657,367,955
Equipment and furniture	28,592,793	15,128,908
Vehicles	12,540,467	13,647,592
Right to Use Assets - Leases	555,915	
Net capital assets	<u>\$757,717,550</u>	<u>\$783,397,365</u>

More detailed information about the District's capital assets is presented in Note 5 to the basic financial statements.

Debt Administration

Debt-management policies seek to provide the most favorable climate for District debt projects while upholding the highest rating possible for debt instruments. Management policies include the following points:

- All debt service obligations will be met when due.
- Long-term financing will be restricted to capital projects and purchases of equipment.
- Long-term bonds will not be issued to finance current operations.
- The District will cooperate and communicate with bond-rating agencies and work towards obtaining the most favorable municipal bond rating possible.
- Outstanding obligations will be reviewed frequently to ensure the most favorable funding structure for the District.
- All necessary information and material regarding the District's financial status will be provided to the appropriate parties.

The ratio of net general bonded debt to assessed valuation is a useful indicator of the District's debt position. This data is presented in the schedule "Ratios of Net General Obligation Bonded Debt Outstanding" (Table 10) in the statistical section and reflects a ratio of net bonded debt to actual taxable value of 4.03%, as compared to 4.53% last year.

The District continues to enjoy strong underlying bond ratings. The latest Moody's Investor Services, Inc. affirmed rating is Aa2 and Standard and Poor's Corporation affirmed rating is AA- for the District's debt obligations. All of the outstanding ad valorem tax bonds of the District carry a credit enhancement rating of AAA due to the Permanent School Fund guarantee.

More detailed information about the District's debt administration is presented in Note 8 to the basic financial statements.

Economic Factors and Next Year's Budget and Rates

The priorities of the 2022-2023 budget were aligned with the Board of Trustees' priorities which are: student outcomes, equity, increased opportunities and choice, leadership, student and staff well-being and community engagement. General operating fund spending per student is budgeted to be \$10,634 based upon the assumption that student enrollment will be 33,610.

Total revenues in the 2022-2023 General Fund budget are \$322.0 million, an increase of 0.94% over the final 2022 revenues of \$319.0 million. This increase is primarily due to anticipated higher local revenue collections.

Expenditures are budgeted for the 2022-2023 fiscal year at \$357.4 million, an increase of 16.95% increase over the final 2022 expenditures.

The 2022-2023 expenditure budget includes a general pay increase of 5.3% to teachers, 3% to clerical and operation staff and 2% to all other employees. The pay increase was provided as a result of an external pay study conducted by the Texas Association of School Boards to review the District's pay schedules in comparison to those of fifteen surrounding school districts. The results of the pay study revealed the District's pay schedule lagged behind those of other area school districts. The pay increase also includes equity adjustments for some pay classes and includes a competitive starting teacher salary of \$60,500. The 2022 final expenditures are lower as a result of supplanting expenditures using ESSER III funds.

The Debt Service Fund revenues are budgeted at \$72.9 million which is an increase of 9.5% over the final 2022 revenues of \$66.6 million. This increase is anticipated due to an increase in property values offset by of a lower interest and sinking tax rate. The debt service expenditures are budgeted at \$69.6 million, an increase of 3.6% over prior year final expenditures of \$67.2 million. The district continues to refinance debt when market conditions are favorable in an effort to achieve debt service savings on outstanding bonds.

Request for Information

This financial report is designed to provide our citizens, taxpayers, business community, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer at 16717 Ella Blvd., Houston, Texas 77090 or call (281) 891-6077.

SPRING INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
June 30, 2022

Exhibit B-2

Total fund balances-governmental funds (Exhibit B-1)	\$204,961,757
Amounts reported for governmental activities in the statement of net position (Exhibit A-1) are different because:	
· Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	757,717,550
· Property taxes receivable, which will be collected subsequent to year-end, but are not available soon enough to pay for current period expenditures and, therefore, are deferred at the fund level.	8,055,974
· Deferred charge on refunding	12,481,373
· Deferred outflows relating to pension activities	32,904,676
· Deferred outflows relating to OPEB activities	27,818,324
· Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long term liabilities at year-end consist of:	
Bonds payable	(\$636,135,000)
Premiums on bond issuance	(83,012,782)
Leases	(534,315)
Accrued compensated absences	(1,490,165)
Workers' compensation claims	(324,255)
Accrued interest on bonds	(10,962,052)
Net pension liability	(55,124,661)
Net OPEB liability	<u>(111,880,790)</u>
· Deferred gain on refunding	(3,657,749)
· Deferred inflows relating to pension activities	(65,566,159)
· Deferred inflows relating to OPEB activities	<u>(82,880,601)</u>
Total net position of governmental activities (Exhibit A-1)	<u>(\$7,628,875)</u>

See accompanying notes to basic financial statements.

SPRING INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2022

Exhibit B-4

Net change in fund balances-total governmental funds (Exhibit B-3)	\$9,247,156
Amounts reported for governmental activities in the statement of net activities (Exhibit A-2) are different because:	
· Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays of \$5,891,874 were exceeded by depreciation of \$32,400,099 in the current period.	(26,508,225)
· Loss on the disposal of a capital asset	(33,832)
· Property taxes receivable which will be collected subsequent to year-end, but are not available soon enough to pay for current period expenditures are not reported as revenues in the governmental funds.	(636,311)
· Proceeds from issuance of long-term debt of \$35,590,000 and premium received from issuance of \$2,461,375 are reported as other financing sources in the governmental funds. In the government-wide financial statements, proceeds are treated as an increase in long-term liabilities.	(38,051,375)
· Payment to refunded bond escrow agent from refunding proceeds of \$37,578,666 is reported as other financing uses in governmental funds. The District's contribution to the refunding of \$1,452,500 is reported as an expenditure in governmental funds. In the government-wide financial statements, amounts paid to refunded bond escrow agent are treated as a decrease in long-term liabilities.	39,031,166
· Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	34,930,000
· Interest on long-term debt in the statement of activities differs from the amounts reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The decrease in interest reported in the statement of activities consists of the following:	
Accrued interest on bonds payable decreased	929,581
Amortization of bond premium	4,913,541
Amortization of deferred gain on refunding	550,557
Amortization of deferred charge on refunding	<u>(1,405,636)</u>
	4,988,043
· In governmental funds, a lease arrangement is considered a source of financing with principal and related interest. But in the statement of net position, the lease obligation is reported as a liability. Repayment of lease principal is an expenditure in the governmental funds, but repayment reduces the liability in the statement of net position. During the year additions to the lease are \$85,984 and reductions are \$413,911. A prior year lease of \$34,858 was included in the restated beginning balance.	362,785
· The net decrease in accrued compensated absences is reported in the statement of activities but is not reported in the governmental funds.	14,310
· The net decrease in the long-term portion of workers' compensation claims payable is reported in the statement of activities but is not reported at the fund level.	5,088
· Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in the governmental funds:	
Pension and OPEB expense for the pension plan measurement year	<u>11,349,858</u>
Change in net position of governmental activities (Exhibit A-2)	<u><u>\$34,698,663</u></u>

Note 1 - Summary of Significant Accounting Policies

A. Reporting Entity

The Spring Independent School District (the District) Board of Trustees (the Board) is a seven-member group, which has governance responsibilities over all activities related to public school education within the District. Because members of the Board are elected by the public; have authority to make decisions; appoint management and significantly influence operations; and have primary accountability for fiscal matters; the District is not included in any other governmental "reporting entity" as defined in the Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus; an amendment of GASB Statements No. 14 and No. 34*. The District is not financially accountable for any other organizations; therefore, no component units are included within the reporting entity.

The District receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Direct expenses are not eliminated from the various functional categories. Interfund services that are provided and used are not eliminated in the process of consolidation. Governmental activities are normally supported by taxes and intergovernmental revenues.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to students or users who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) operating grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported instead as general revenues. The District has no business-type activities that rely, to a significant extent, on fees and charges for support.

Separate financial statements are provided for governmental funds, fiduciary funds, and internal service funds. The fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The fiduciary fund financial statements reflect the District's custodial fund. The custodial fund

reports the student and district activity funds and uses the economic resources focus and the accrual basis of accounting.

The internal service fund financial statements are reported on the same basis as the government-wide statements. The District implemented the internal service fund type to report activities for its self-funded healthcare. Internal Service funds are established to account for the activity that provides goods or services to other funds of the primary government and should only be used when the reporting government is the predominant participant in the activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the fiscal year-end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, revenues received from the State of Texas, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when cash is received by the government.

The accounting policies of the District comply with the rules prescribed in the *Financial Accountability System Resource Guide* by the Texas Education Agency (TEA). These accounting policies conform to generally accepted accounting principles (GAAP) applicable to governments.

The District's accounting system is organized and operated on the basis of funds, each of which is a separate accounting entity with a self-balancing set of accounts. The District's resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The individual funds are grouped into two basic fund categories and are briefly described below.

Governmental Funds - Those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities are accounted for through the Governmental Fund Types.

The District reports the following major governmental funds:

- General Fund - The General Fund is the District's general operating fund and accounts for all financial transactions except those required to be accounted for in another fund. Major revenue sources within the General Fund include local property taxes, state funding under the Foundation School Program, and federal source revenues not accounted for in Special Revenue Funds. Expenditures include all costs associated with the daily operations of the schools except for specific programs funded by certain local, state and federal sources, capital projects, and debt service.
- Debt Service Fund - This fund accounts for the accumulation of resources for, and the payment of principal, interest, and related costs of general obligation bonds. The primary revenue sources are local property taxes levied specifically for debt service and state funding under the

Existing Debt Allotment. These financial resources are restricted for debt service.

- Elementary & Secondary School Emergency Relief Fund (ESSER III) – This fund accounts for the federal stimulus funds granted to the local education agencies through the American Rescue Plan Act of 2021 (ARP) to support the District's instruction and operations in addressing the impact of the coronavirus pandemic on students.

The District reports the following non-major governmental funds:

- Special Revenue Funds - These funds account for the District's Child Nutrition Fund, School Activity Funds, state funding of the instructional materials allotment and all non-major federal, state, and locally funded grants. These grants are awarded to the District with the purpose of accomplishing specific educational tasks as defined in the grant awards. The proceeds of these specific revenue sources are restricted or committed.
- Capital Projects Fund – This fund accounts for the proceeds of bond sales and other financial resources to be used for capital outlays, including the purchase of school sites, construction and renovation of school facilities, and the purchase of school buses and other capital assets. The financial resources from bond proceeds in this fund are restricted, whereas the proceeds from other financial resources are committed or assigned.

Additionally, the District reports the following funds:

Fiduciary Fund - Used to account for amounts held by the District in a trustee capacity. This fund is accounted for on an accrual basis.

- Custodial Fund - This fund is to account for resources held in a custodial capacity by the District. This fund accounts for the District's Student Activity Funds, which collect monies through the fund-raising efforts of the individual schools or school-sponsored groups. The school principals are responsible, under the authority of the Board, for collecting, controlling, disbursing and accounting for all student activity funds.

Proprietary Fund – Used to account for amounts collected and paid for the provision of services or goods by a reporting entity. This fund is accounted for on an accrual basis.

- Internal Service Fund – This fund is to account for the activity for the District's self-funded medical insurance. It accounts for the collection of the District's and employee contributions to the premiums and the payment of claims and other related costs.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investments are reported at fair value, which is the amount at which the investment can be exchanged in a current transaction between willing parties.

The District categorizes fair value measurements of its investments based on the hierarchy

established by generally accepted accounting principles. The net increase or decrease in the fair value of investments is netted with investment income in local sources or revenue. Investments are generally held to maturity. The District's local government investment pools are recorded at amortized costs as permitted by GASB Statement No. 79 *Certain Investment Pools and Pool Participants*.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds." All other outstanding balances between funds are reported as "interfund receivables/payables."

Property taxes receivable include unpaid property taxes at year-end along with penalties and interest assessed on these unpaid taxes, net of an allowance for uncollectible taxes.

The appraisal of property within the District is the responsibility of the Harris County Appraisal District (HCAD), an independent governmental unit with a board of directors appointed by the taxing jurisdictions within the county and funded from assessments against those taxing jurisdictions. On January 1 of each year an enforceable lien is placed on all real property within the District to secure collection of property taxes. Property taxes for a fiscal year are levied based on HCAD appraised values on approximately October 1 and are due by the following January 31. Unpaid taxes become delinquent on February 1.

The tax rates applicable to general governmental services and debt service for 2021-2022 were \$0.90280 and \$0.41000, respectively, based on a taxable value of \$16,227,963,611. Uncollected taxes are recorded as unavailable revenue in the fund financial statement net of the related allowance for uncollectible taxes. The resulting net taxes receivable is stated at the amount estimated to be collectible based upon the District's collection experience. The allowance for uncollectible property taxes is equal to 37.34% of outstanding property taxes at June 30, 2022.

Refunds to taxpayers result when property taxes are reduced subsequent to being levied due to a reduction of appraised value resulting from a taxpayer lawsuit filed against HCAD, the correction of tax roll errors, or overpayments made by taxpayers.

Inventories

Under the District's system of accounting for inventories, materials and supplies are charged to an inventory account on the basis of the weighted average invoice cost, and are subsequently recognized as expenditures when used or consumed (consumption method) rather than when purchased. Inventories include custodial, maintenance, office and instructional supplies, gasoline, and food consumables. Child Nutrition commodity inventory is recorded at fair market value on the date received. Revenue is recognized at fair market value when commodities are distributed to the schools.

General Fund inventory is categorized as a non-spendable portion of fund balance to indicate that the assets are not available financial resources. Child Nutrition's inventory consists primarily of food items that will be available for sale, and therefore its inventory is included in non-spendable fund balance.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements using the consumption method of accounting. Prepaid items are categorized as non-spendable portions of fund balance to indicate that the assets are not available financial resources.

Capital Assets

Capital assets which include land, construction-in-progress, buildings and improvements, and furniture and equipment are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 or more and an estimated useful life of greater than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. When assets are retired or otherwise disposed of, the related costs or other recorded amounts are removed.

Buildings and improvements and furniture and equipment and are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Useful Life</u> <u>(Years)</u>
Buildings and improvements	20 - 40
Automotive equipment	
Buses	15
Other	10
Furniture and equipment	5 - 20
Software	5 - 10

Land and construction-in-progress are not depreciated.

Right to Use Assets

The District has entered lease agreements for copiers and other equipment. The terms of these leases have granted the District the economic benefits of the use of these items for the duration of each lease term. The District has determined that a right to use asset will result from a leasing arrangement with an initial present value of the future minimum payments of \$5,000 or more and the leasing arrangement exceeds one year. The leases are amortized using the straight-line method over the term of each lease.

Deferred Outflows/Inflows of Resources

Deferred outflows and inflows of resources are reported in the Statement of Net Position as

described below:

A *deferred outflow of resources* is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

- Deferred outflows of resources for refunding - Reported in the government-wide financial Statement of Net Position, this deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Deferred outflows of resources for pension - Reported in the government-wide financial Statement of Net Position, this deferred outflow could result from pension plan contributions made after the measurement date of the net pension liability and the results of (1) differences between projected and actual earnings on pension plan investments; (2) changes in actuarial assumptions; (3) differences between expected and actual actuarial experiences and (4) changes in the District's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. If reported, deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.
- Deferred outflows of resources for other post-employment benefits (OPEB) - Reported in the government-wide financial Statement of Net Position, this deferred outflow could result from OPEB plan contributions made after the measurement date of the net OPEB liability and the results of (1) differences between projected and actual earnings on OPEB plan investments; (2) changes in actuarial assumptions; (3) differences between expected and actual actuarial experiences and (4) changes in the District's proportional share of OPEB liabilities. The deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the next fiscal year. If reported, deferred outflows resulting from differences between projected and actual earnings on OPEB plan investments will be amortized over a closed five-year period. The remaining OPEB related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB benefits through the OPEB plan.

A *deferred inflow of resources* is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has four items that qualify for reporting in this category:

- Deferred inflows of resources for unavailable revenues - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes and other sources that arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

- Deferred inflows of resources for refunding - Reported in the government-wide financial Statement of Net Position, this deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Deferred inflows of resources for pension - Reported in the government-wide financial Statement of Net Position, this deferred inflow could result from (1) differences between projected and actual earnings on pension plan investments; (2) changes in actuarial assumptions; (3) differences between expected and actual actuarial experiences and (4) changes in the District's proportional share of pension liabilities. If reported, deferred inflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The remaining pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.
- Deferred inflows of resources for OPEB - Reported in the government-wide financial Statement of Net Position, this deferred inflow could result from (1) differences between projected and actual earnings on OPEB plan investments; (2) changes in actuarial assumptions; (3) differences between expected and actual actuarial experiences and (4) changes in the District's proportional share of OPEB liabilities. If reported, deferred inflows resulting from differences between projected and actual earnings on OPEB plan investments will be amortized over a closed five-year period. The remaining OPEB related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB benefits through the OPEB plan.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits (OPEB)

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Compensated Absences

District policy does not allow staff members to be compensated for accrued and unused sick leave. Full time staff members can contribute one day of sick leave annually to benefit staff members

whose own leave has been exhausted due to catastrophic illness. Twelve-month classified staff members (maintenance, warehouse and nonexempt supervisory staff members) are granted annual vacation days based on consecutive years of service. Staff members may carry no more than 60 days of accrued vacation days to the following year. Staff members are paid for accumulated unused vacation time only upon termination of employment. The estimated liability for accrued compensated absences is reported in the government-wide financial statements.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized as an expense in the period incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balance

The fund balance in governmental funds has been classified as follows to describe the relative strength of the spending constraints:

- Non-spendable fund balance - amounts that are not in spendable form or are required to be maintained intact. As such, the inventory in the General Fund and Child Nutrition and the prepaid items in the General Fund and the Capital Projects Fund have been properly classified as non-spendable in the Governmental Funds Balance Sheet (Exhibit B-1).
- Restricted fund balance - amounts that can be spent only for specific purposes because of local, state or federal laws, or externally imposed conditions by grantors or creditors. With the exception of School Activity Funds, the fund balances of grant funds are classified as restricted. The fund balance of the Debt Service Fund in the amount of \$73,149,824, and the fund balance of the Capital Projects Fund which is from the proceeds of bond sales of \$6,337,444 are also classified as restricted.
- Committed fund balance - amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e. the Board of Trustees). To be reported as committed, amounts cannot be used for any other purposes unless the District takes the same highest level of action to remove or change the constraint. The District establishes (and modifies or rescinds) the fund balance commitments by passage of a resolution. The District has committed the School Activity Funds balances in the amount of \$1,183,693 in the Special Revenue Funds. The District also committed \$5,000,000 in the General Fund balance for a strategic compensation plan.
- Assigned fund balance - amounts the District intends to use for a specific purpose. Intent can be expressed by the District or by an official or body to which the Board of Trustees delegates

the authority. The Board approved a resolution authorizing the Superintendent or the Chief Financial Officer to assign fund balance.

The General Fund had an assigned fund balance of \$40,796,750 which includes:

Assignment	Priority	Focus Area	Amount
Encumbrances for education supplies and projects	Student Outcomes	Effective Instruction	\$796,750
The District continues to monitor and respond to the ever-changing needs of our students and staff to ensure a safe learning and working environment. Additional funds are necessary to cover unexpected expenditures as they arise as well as maintain sufficient cash flow to ensure financial stability during times of fluctuations in student enrollment and attendance as a result of the pandemic.	Student Outcomes & Equity	Effective Instruction	40,000,000
		Equitable Practices	
		Equitable Resources	
Total General Fund Assigned Fund Balance			\$40,796,750

The Capital Projects Fund has an assigned fund balance of \$2,150,957. These are funds transferred from the General Fund to the Capital Projects Fund which are assigned for renovations, construction projects, technology improvements, and the purchase of capital assets.

- Unassigned fund balance - amounts that are available for any legal expenditure. It is not possible to report a positive amount of unassigned fund balance in a governmental fund other than General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance (the total of committed, assigned, and unassigned fund balance) is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Accounting Estimates

The preparation of the financial statements in accordance with GAAP requires management to make use of estimates and assumptions that affect amounts reported in the financial statements as well as certain disclosures. Actual results could differ from these estimates.

New Accounting Pronouncements

The following GASB Pronouncements were implemented by the District during fiscal year 2022.

GASB Statement No. 87, *Leases* was effective for reporting periods beginning after June 15, 2021. This Statement requires leases to be recognized and measured using the facts and circumstances that exist at the beginning of implementation which was July 1, 2021 for the District. This Statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. As a lessee, the District is required to recognize a lease liability and an intangible right-to-use lease asset with the related amortization. The right to use value is equal to the present value of the future minimum lease payments at the time of implementation of GASB 87. Leases that existed for the District at the date of implementation were remeasured for their beginning balances.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. It was issued in June 2020, but the requirements in (1) paragraph 4 of this Statement as it applies to defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans and (2) paragraph 5 of this Statement are effective immediately. The requirements in paragraphs 6–9 of this Statement that are related to the accounting and financial reporting for section 457 plans are effective for fiscal years beginning after June 15, 2021.

- Statement No. 83, *Certain Asset Retirement Obligations*
- Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*
- Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*
- Statement No. 90, *Majority Equity Interests*
- Statement No. 93, *Replacement of Interbank Offered Rates*
- Statement No. 98, *The Annual Comprehensive Financial Report*

The following GASB pronouncements have been issued but have not yet been implemented by the District:

GASB Statement No. 94, *Public-Private and Public-Public Partnerships (PPP) and Availability Payment Arrangements (APA)*. This statement was issued in March 2020 and provides guidance on the financial reporting for public-private, public-public partnership arrangements and availability payment arrangements. These type of arrangements result when a government contracts with an operator to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset, for a period of time in an exchange or exchange-like transaction (PPP) or when a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an

underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction (APA). This statement is effective for fiscal years beginning after June 15, 2022.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. This statement was issued in May 2020 and provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. This statement is effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Implementation of this Statement is planned for fiscal year 2023.

Note 2 – Stewardship, Compliance, and Accountability

Budgetary Information

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the General Fund, Child Nutrition Fund and Debt Service Fund for the fiscal year beginning September 1 (or July 1, if the District has elected to change the start of the fiscal year). The Texas Education Code requires the budget to be prepared not later than August 20 (June 19 for a fiscal year start date of July 1) and adopted by August 31 (June 30 for a fiscal year start date of July 1) of each year. The District's administration determines budgetary funding priorities using a modified zero-based budgeting concept, which is consistent with GAAP. Final budget allocations are determined by the Board, which subsequently establishes a tax rate sufficient to support the approved budget. The annual budget, which is prepared on the modified accrual basis of accounting, must be adopted by the Board at a scheduled meeting after giving ten days public notice of the meeting. The District annually adopts a legally authorized appropriated budget for the General Fund, Child Nutrition Fund, and Debt Service Fund.

The District's administration performs budget reviews three times a year by which budget requirements are re-evaluated and revisions recommended to the Board. The Board approves amendments to the budget, which are required when a change is made to any one of the functional expenditure categories defined by the TEA. Expenditures may not legally exceed budgeted appropriations, as amended, at the function level by fund. Unexpended appropriations lapse at year-end.

Encumbrances

The District utilizes encumbrance accounting in its governmental funds. Encumbrances represent commitments related to contracts not yet performed (executory contracts), and are used to control expenditures for the year and to enhance cash management. The District often issues purchase orders or signs contracts for the purchase of goods and services to be received in the future. At the time these commitments are made, which in its simplest form means that when a purchase order is prepared, the appropriate account is checked for available funds. If an adequate balance exists, the amount of the order is immediately charged to the account to reduce the available balance for control purposes. The encumbrance account does not represent an expenditure for the period, only a commitment to expend resources.

Prior to the end of the year, every effort is made to liquidate outstanding encumbrances. When encumbrances are outstanding at the fiscal year end, the District likely will honor the open purchase orders or contracts that support the encumbrances. For reporting purposes, as noted earlier, outstanding encumbrances are not considered expenditures for the fiscal year. If the District allows encumbrances to lapse, even though it plans to honor the encumbrances, the appropriations authority expires and the items represented by the encumbrances are usually reappropriated in the following year's budget. Outstanding encumbrances at fiscal year-end are included in restricted, committed or assigned fund balance as appropriate. At June 30, 2022, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

General Fund	\$796,750
ESSER III	5,635,584
Non-Major Governmental Funds	5,823,744
Total	<u><u>\$12,256,078</u></u>

Note 3 - Cash and Investments

The District's banking and investment policies are in accordance with laws and regulations of the Public Funds Investment Act (the Act), State of Texas and the TEA. The Act and policies mandated by the District's Board authorize the District to invest in obligations of the U.S. Treasury or the State of Texas, certain U.S. Agencies, certificates of deposit, money market savings accounts, repurchase agreements, commercial paper, and public funds investment pools.

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the School Depository Act. The depository bank deposits for safekeeping and trust, approved pledged collateral in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved collateral is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

Cash

At year-end, the carrying amount of the District's cash on deposit was \$5,069,652 and the bank balance was \$6,753,636. The depository cash balances were covered by FDIC insurance and by collateral held by the District's agents in the District's name.

The District's depository cash balances were properly collateralized at all times during the year.

Investments

As of June 30, 2022, the District's investments consisted of balances held by Texas Local Government Investment Pool (TexPool), TexasTERM Local Government Investment Pool (TexasTERM), and PNC Bank Money Market accounts.

TexPool is a public funds investment pool created by the Texas Treasury Safekeeping Trust Company (the Trust Company) to provide a safe environment for the placement of local government funds. The portfolio consists of U.S. Treasury and government agency securities,

repurchase agreements, certain mutual funds, collateralized repurchase and reverse repurchase agreements, no-load money market mutual funds regulated by the Securities and Exchange Commission and rated AAA or equivalent by at least one nationally recognized statistical rating organization, securities lending programs, and certificates of deposit. TexPool is overseen by the State Comptroller of Public Accounts and administered by Federated Hermes, Inc. The State Street Bank is the custodial bank. TexPool follows chapter 2256 of the Texas Public Funds Investment Act. TexPool uses amortized cost rather than fair value to report net assets to compute share prices. The fair value of the position in TexPool is the same as the value of TexPool shares. Accordingly, the District's investments in TexPool are stated at amortized cost, which approximates fair value.

TexasTERM is a public funds investment pool created by and for Texas local governments to provide investment options with safety, flexibility, and competitive yields. PFM Asset Management, LLC acts as the investment advisor of the pool. The pool consists of the TexasDAILY Program, which is a money market portfolio with daily liquidity, whose investment objective is to produce the highest income consistent with preserving principal and maintaining liquidity, and to maintain a stable \$1.00 net asset value (NAV). TexasDAILY has received a rating of AAAMmmf from Fitch Ratings. GASB Statement No. 31 allows that the value at maturity and fair value to be the same for investment positions that mature within one year of the purchase date of the position. Therefore, TexasTERM's fair value and the value at maturity for the District's investment are the same.

PNC Bank offers a Public Funds Money Market Account that has a competitive yield. Money Market accounts are a type of savings account that usually pay a higher interest rate. These funds are considered liquid; however, the account has a limit of six electronic withdrawals per month. Withdrawals are governed by law, and if exceeded, could result in the bank reclassifying the account. PNC Bank Money Market accounts are pledged by FDIC Insurance and the approved collateral.

As noted in the District's Significant Accounting Policies, the District reports its local government investment pools at amortized cost as permitted by GASB Statement No. 79 *Certain External Investment Pools and Pool Participants*. In addition, both TexPool and TexasDAILY do not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. Both pools do not impose any liquidity fees or redemption gates.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application* provides a framework for measuring fair value which establishes the following three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities:

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs-other than quoted prices included within Level 1-that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs

and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

The District's Money Market is reported at fair value using Level 2 inputs. The fair value measurements are based on quoted market prices using matrix pricing technique by the pricing source that values securities based on their relationship to benchmark quoted prices (Level 2 inputs). The District does not have any investments that are measured using Level 1 or 3 inputs.

At June 30, 2022, the fair value, credit rating, percentage of investments, and weighted average maturity of the District's investments are summarized as follows:

	<u>Fair Value</u>	<u>Credit Rating</u>	<u>Percentage of Investments</u>	<u>Weighted Average Maturity (Days)</u>
<u>Temporary Investments:</u>				
Money Market	\$34	n/a	0.00%	1
TexPool	122,854,748	AAAm	67.31%	23
TexPool Prime	44,605,434	AAAm	24.44%	18
TexasDAILY	15,065,080	AAAmmf	8.25%	21
Total	<u>\$182,525,296</u>		<u>100.00%</u>	

Portfolio weighted average maturity 22

Although TexPool and TexasDAILY have a weighted average maturity greater than one, the funds are available to the District within one day.

Credit Risk

Credit risk is the risk that a counter party to a deposit or investment transaction will not fulfill its obligations. This is not to be confused with market risk, which is the risk that the fair value of an investment, collateral protecting a deposit, or securities underlying a repurchase agreement, will decline. Market risk is not depicted in this note.

State law and the District's investment policy limits investments in all categories to top ratings issued by nationally recognized statistical rating organizations.

Concentration of Credit Risk

The District has no specific policy relating to the credit risk of investments. However, the District's investment policy requires that the investment portfolio be diversified to avoid incurring undue concentration in securities of one type at one financial institution, so that no single investment or class of investments can have a disproportionate impact on the total portfolio. This restriction does not apply to U.S. Treasury Securities or investment pools.

Interest Rate Risk

As a means of minimizing risk of loss due to interest rate fluctuations, the District requires that the total portfolio's weighted average maturity is less than 365 days. The District's Investment Policy also limits that no investment shall have an original stated maturity greater than two or three years depending on the instrument. The District also ensures diversification and holds investment instruments until maturity.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker dealer) to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in the possession of another party. The District's policy requires that a third party custodian or a bank trust department hold all securities owned by the District.

Adjustment to Investments' Fair Value

The District's portfolio value fluctuates in an inverse relationship to any change in interest rate. Accordingly, if interest rates have risen, the portfolio value will have declined. If interest rates have fallen, the portfolio value will have risen. Fair values of commercial paper are based on quoted market prices. The investments are reported by the District at fair value in accordance with GAAP. The District had no gains or losses from the sale of securities because they were held to maturity. All securities are quoted at fair value including accrued interest.

The total investment income was \$369,840.

Note 4 - Receivables

Receivables as of June 30, 2022, for the District's individual major funds and non-major funds in the aggregate, including applicable allowances for uncollectible accounts are as follows:

	General Fund	Debt Service Fund	ESSER III	Non-Major Other Governmental Funds	Total
Property taxes	\$9,788,242	\$4,257,961			\$14,046,203
Due from state	24,573,021		\$13,781,311	\$16,466,454	54,820,786
Due from other governments	55,616			1,744	57,360
Accrued interest					
Miscellaneous receivables	218,033			106,701	324,734
Gross receivables	34,634,912	4,257,961	13,781,311	16,574,899	69,249,083
Less allowance for uncollectibles	(3,755,300)	(1,489,300)			(5,244,600)
Total net receivables	<u>\$30,879,612</u>	<u>\$2,768,661</u>	<u>\$13,781,311</u>	<u>\$16,574,899</u>	<u>\$64,004,483</u>

Note 5 - Capital Assets

A summary of changes in capital asset activity for the year ended June 30, 2022 is as follows:

	Balance July 1, 2021 Restated*	Additions	(Retirements)	Transfers	Balance June 30, 2022
<u>Capital assets, not being depreciated:</u>					
Land	\$79,847,596				\$79,847,596
Construction-in progress	17,405,314	\$190,906		(\$17,341,277)	254,943
Total capital assets, not being depreciated	97,252,910	190,906		(17,341,277)	80,102,539
<u>Capital assets, being depreciated:</u>					
Buildings and improvements	1,014,816,303			3,686,684	1,018,502,987
Vehicles	35,960,531	837,369	(1,448,028)		35,349,872
Furniture and equipment	94,630,004	4,777,614	(40,812,368)	13,654,593	72,249,843
Right-to-use leased equipment	1,107,399	85,985			1,193,384
Total capital assets, being depreciated	1,146,514,237	5,700,968	(42,260,396)	17,341,277	1,127,296,086
<u>Less accumulated depreciation:</u>					
Buildings and improvements	(357,448,348)	(25,128,803)			(382,577,151)
Vehicles	(22,312,939)	(1,914,617)	1,418,151		(22,809,405)
Furniture and equipment	(79,561,000)	(4,904,463)	40,808,413		(43,657,050)
Right-to-use leased equipment	(185,253)	(452,216)			(637,469)
Total accumulated depreciation	(459,507,540)	(32,400,099)	42,226,564		(449,681,075)
Governmental activities capital assets, net	\$784,259,607	(\$26,508,225)	(\$33,832)		\$757,717,550

*Due to the implementation of GASB 87 the beginning balance for the right to use lease equipment was restated for the measurement year of fiscal year 2022 with no change in net position.

Depreciation and amortization expense was charged to functions/programs of the governmental activities as follows:

Instruction	\$11,681,881
Instructional resources and media services	636,126
Curriculum and staff development	7,202
Instructional leadership	598,599
School leadership	547,598
Guidance and counseling services	96,303
Health services	89,568
Student (pupil) transportation	1,800,386
Child nutrition services	2,114,154
Co-curricular activities	2,096,872
General administration	614,083
Plant maintenance and operations	8,025,987
Security and monitoring services	753,522
Data processing services	3,250,401
Community services	87,417
Total	<u>\$32,400,099</u>

At June 30, 2022 the District has ongoing construction projects where the active commitments with contractors are as follows:

	Construction in Progress	Remaining Commitments
Anderson Leadership Traffic Signal and Parking	\$22,015	\$75,404
Special Education Department move to North Forest	44,270	23,589
Wells Middle School Chiller	24,990	810,504
Family Storefront - Anderson Leadership Renovation	17,040	8,202
District-wide Emergency Radio	10,000	3,000
Westfield HS PAC Renovation	83,483	196,893
Twin Creeks Middle School Bleachers	8,000	211,509
District Network Communication Center	42,712	1,368
Rebuild of Data Center-Network Operations Fire Suppression	2,433	58,839
Total	<u>\$254,943</u>	<u>\$1,389,308</u>

Leases

As defined by GASB 87, leases are financings of the right to use an underlying asset. The District had leases for copiers and other equipment during the fiscal year 2022.

Right to Use Assets by Asset Class
Year ended June 30, 2022

Copiers

In the fiscal year 2022, The District leased 204 copiers as right to use assets. Principal and interest payments on these assets at June 30, 2022, are summarized as follows:

Year Ending June 30	Principal	Interest	Total
2023	\$298,705	\$16,151	\$314,856
2024	138,583	3,507	142,090
2025	18,352	389	18,741
2026	1,219	12	1,231
	<u>\$456,859</u>	<u>\$20,059</u>	<u>\$476,918</u>

Other Equipment

In fiscal year 2022, the District leased a postage machine and printer. Principal and interest payments on these assets at June 30, 2022, are summarized as follows:

Year Ending June 30	Principal	Interest	Total
2023	\$27,274	\$1,458	\$28,732
2024	28,000	731	28,731
2025	22,182	58	22,240
	<u>\$77,456</u>	<u>\$2,247</u>	<u>\$79,703</u>

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances in the fund financial statements as of June 30, 2022, was as follows:

	<u>Receivable</u>	<u>Payable</u>
General Fund	\$19,385,135	\$4,026,371
Debt Service Fund	97,039	
ESSER III		9,172,619
Non-Major Other Governmental Funds	4,080,015	11,580,941
Internal Service Fund	1,217,742	
Total	<u>\$24,779,931</u>	<u>\$24,779,931</u>

All interfund balances are routine in nature, used to pay back funds as necessary, and are expected to be repaid within one year. Most of the amounts represent short-term borrowing between funds for operating expense payments.

Interfund transfers are defined as “flows of assets without equivalent flow of assets in return and without requirement for repayment”. The following is a summary of the District’s transfers for the year ended June 30, 2022:

<u>Transfer Out</u>	<u>Transfer In</u>	<u>Amount</u>
General Fund	Child Nutrition Fund	\$43,802
General Fund	Internal Service Fund	3,714,515
		<u>\$3,758,317</u>

The transfer from the General Fund to the Child Nutrition Fund was for income surveys and unpaid student lunch charges. The transfer from the General Fund to the self-funded medical insurance fund was due to an operating loss sustained by the fund.

Note 7 - Deferred Inflows of Resources and Unearned Revenue

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are considered to be unavailable to liquidate liabilities in the current period. Revenue recognition in governmental funds does not occur until resources that have been received in advance are earned.

The following is a summary of deferred inflows of resources and unearned revenue by fund at June 30, 2022:

	Unavailable Revenue	Unearned Revenue
<u>Deferred Inflows of Resources:</u>		
General Fund - Property Taxes	\$5,583,212	
Debt Service Fund - Property Taxes	2,472,762	
<u>Unearned Revenue:</u>		
General Fund - Advance Funding		\$2,381
Non-Major Other Governmental Funds - Advance Funding		662,506
Total	<u>\$8,055,974</u>	<u>\$664,887</u>

Note 8 - Long-Term Liabilities

The District's long-term liabilities consist of bond indebtedness, capital leases, accrued compensated absences, and workers' compensation liability. Bonds are payable solely from future revenues of the Debt Service Fund which consist principally of property taxes collected by the District, state funding, and investment income. Lease obligations are payable from the General Fund. The same governmental funds used to pay the employee's salary are used to liquidate the liability for accrued compensated absences. These funds have included the General Fund and the Child Nutrition Fund. Workers' compensation claim liabilities are generally liquidated by the General Fund in the current and prior year.

Changes in Long-term Liabilities

The following is a summary of the long-term liability activity of the District for the fiscal year ended June 30, 2022:

	Balance July 1, 2021 Restated*	Additions	Retirements	Balance June 30, 2022	Due Within One Year
General obligation bonds	\$672,665,000	\$35,590,000	(\$72,120,000)	\$636,135,000	\$37,425,000
Premium from sale of bonds	89,654,003	2,461,375	(9,102,596)	83,012,782	
Total bonds payable	762,319,003	38,051,375	(81,222,596)	719,147,782	37,425,000
Leases	862,243	85,984	(413,911)	534,315	325,979
Accrued compensated absences	1,504,475	654,695	(669,005)	1,490,165	662,642
Workers' compensation claims	1,463,256	717,169	(739,294)	1,441,131	1,116,877
Medical insurance claims		10,704,612	(9,438,444)	1,266,168	1,266,168
Total long-term liabilities	<u>\$766,148,977</u>	<u>\$50,213,835</u>	<u>(\$92,483,250)</u>	<u>\$723,879,561</u>	<u>\$40,796,666</u>

*Due to the implementation of GASB 87 the beginning balance for the right to use lease equipment was restated for the measurement year of fiscal year 2022 with no change in net position.

The District's net pension liability as of June 30, 2022 was \$55,124,661, which is a decrease of \$55,401,738 from the District's June 30, 2021 net pension liability of \$110,526,399.

The District's net OPEB liability as of June 30, 2022 was 111,880,790, which was an increase of \$4,332,356 from the District's June 30, 2021 net OPEB liability of \$107,548,434.

General Obligation Bonds

The District issues general obligation bonds to provide funds for the construction, acquisition, and equipment of school buildings, including safety, security, and technology improvements, for the purchase of necessary sites for school buildings, for the purchase of new school buses, and for refunding outstanding bonds of the District. These bonds are direct obligations and pledge the full faith and credit of the District. These are issued as current interest bonds, term bonds, and/or serial bonds with various amounts of principal maturing each year. Certain outstanding bonds may be redeemed at their par value prior to their normal maturity dates in accordance with the terms of the related bond indentures.

General obligation bonds payable at June 30, 2022, are summarized as follows:

<u>Date Series</u> <u>Issued</u>	<u>Series Maturing</u> <u>Through</u>	<u>Interest</u> <u>Rates (%)</u>	<u>Original</u> <u>Issuance</u>	<u>Outstanding</u> <u>Balance</u>
2013	2027	5.000	\$38,110,000	\$3,625,000
2013A	2029	5.000	33,005,000	2,270,000
2014	2030	3.250 - 5.000	76,865,000	66,750,000
2015	2033	4.000 - 5.000	136,870,000	105,470,000
2016	2034	3.500 - 5.000	80,120,000	60,815,000
2017	2042	4.000 - 5.000	198,715,000	180,715,000
2017A	2029	3.000 - 5.000	53,615,000	53,615,000
2018	2033	4.000 - 5.000	10,385,000	7,005,000
2019	2043	4.000 - 5.000	98,070,000	96,380,000
2020	2026	5.000	29,425,000	23,900,000
2021	2027	5.000	8,795,000	8,795,000
2021A	2028	.520 - 5.000	26,795,000	26,795,000
			<u>\$790,770,000</u>	<u>\$636,135,000</u>

At June 30, 2022, the District had no authorized but unissued bonds.

In July 2021, the District issued \$8,795,000 in Unlimited Tax Refunding Bonds, Series 2021. The proceeds from the sale of the Bonds, along with the District contribution of \$252,500, were used to promptly retire \$10,100,000 of the District's Unlimited Tax Refunding Bonds, Series 2012 in a current refunding. The original maturities range between 2022 and 2027.

The Series 2021 bonds were issued at a premium of \$1,475,015 with issuance costs of \$170,015. The premium is being amortized over the life of the bonds in the government-wide financial statements. The refunding reduced the District's future debt service payments by \$1,498,661 and resulted in an economic gain of \$1,449,293 (difference between the present value of the debt service payments on the old debt and the new debt). The net carrying amount of the old debt exceeded the reacquisition price by \$988,741. This amount is considered a deferred inflow of resources and is being amortized over the remaining life of the refunded debt or the life of the new

debt, whichever is shorter. The net proceeds of the refunding bonds were placed in an irrevocable trust with the paying agent to be utilized for the redemption of the refunded bonds on the redemption date of August 15, 2021. As a result, the refunded bonds are considered to be defeased and the liability for such bonds has been removed from the District's financial statements.

In December 2021, the District issued \$26,795,000 in Unlimited Tax Refunding Bonds, Taxable Series 2021A. The proceeds from the sale of the Bonds, along with the District contribution of \$1,200,000, were used to promptly retire \$11,140,000 of the District's Unlimited Refunding Bonds, Series 2013, and \$15,950,000 of the District's Unlimited Tax Refunding Bonds, Series 2013A.

The Series 2021A bonds were issued at a premium of \$986,360 with issuance costs of \$302,695. The premium is being amortized over the life of the bonds in the government-wide financial statements. The refunding reduced the District's future debt service payments by \$3,923,828 and resulted in an economic gain of \$3,576,513 (difference between the present value of the debt service payments on the old debt and the new debt). The net carrying amount of the old debt exceeded the reacquisition price by \$1,359,149. This amount is considered a deferred inflow of resources and is being amortized over the remaining life of the refunded debt or the life of the new debt, whichever is shorter. The net proceeds of the refunding bonds were placed in an irrevocable trust with an escrow agent to be utilized for all future debt service payments and the redemption of the refunded bonds. Accordingly, the trust accounts and the liability for the defeased bonds are not included in the District's financial statements.

At June 30, 2022, the following outstanding bonds are considered defeased:

Series Refunded	Year Refunded	Maturing	Callable	Outstanding Balance
2013	2021	2023-2027	8/15/2022	\$11,140,000
2013A	2021	2024-2029	2/15/2023	15,950,000
				<u>\$27,090,000</u>

Principal and interest payments on general obligation bonds payable at June 30, 2022, are summarized as follows:

Year Ending June 30	Principal	Interest	Total
2023	\$37,425,000	\$28,595,562	\$66,020,562
2024	36,720,000	26,771,645	63,491,645
2025	40,760,000	24,998,863	65,758,863
2026	42,600,000	23,112,234	65,712,234
2027	44,530,000	21,029,447	65,559,447
2028-2032	219,550,000	72,676,932	292,226,932
2033-2037	101,620,000	36,141,050	137,761,050
2038-2042	86,385,000	16,423,225	102,808,225
2043-2044	26,545,000	867,750	27,412,750
Total	<u>\$636,135,000</u>	<u>\$250,616,708</u>	<u>\$886,751,708</u>

In accordance with the provisions of Section 148 of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Rebutable arbitrage is the excess of the amount earned on investments purchased with bond proceeds over the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. Rebutable arbitrage must be paid to the U.S. Treasury at the end of each five- year anniversary of the bond issue and upon final redemption of all outstanding bonds of the issue. The District has estimated that it has no arbitrage liability as of June 30, 2022.

Note 9 - Revenues from Local and Intermediate Sources

During the current year, revenues from local and intermediate sources reported in governmental funds consisted of the following:

	General	Debt	Non-Major	Total
	Fund	Service	Other	Governmental
	Fund	Fund	Governmental	Governmental
	Funds	Funds	Funds	Funds
Property taxes	\$139,499,736	\$65,034,995		\$204,534,731
Penalty & interest	950,000	434,275		1,384,275
Tuition and fees	121,287		\$7,967	129,254
Earnings on investments	205,795	131,635	32,410	369,840
Food sales			1,169,994	1,169,994
Other local	1,641,048		2,213,520	3,854,568
Total	<u>\$142,417,866</u>	<u>\$65,600,905</u>	<u>\$3,423,891</u>	<u>\$211,442,662</u>

Note 10 - Risk Management

Property, Casualty and Liability Insurance

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of property; errors and omissions; and natural disasters for which the District carries commercial insurance. Settled claims have not exceeded insurance coverage in any of the previous three fiscal years. There has not been any significant reduction in insurance coverage from that of the previous year.

Health Insurance Fund

Beginning September 2022, the District sponsored a self-funded plan to provide health care benefits to employees and their dependents. The plan was administered by a third party. The District was protected against catastrophic individual or aggregate loss through stop-loss coverage carried through an insurance carrier.

Premiums are paid into an internal service fund and are available to pay claims and administrative costs of the program. These interfund premiums are reported as revenues in the internal service fund.

Estimates of claims payable and of claims incurred but not reported as of June 30, 2022, are reflected as claims payable of the fund. These estimates were determined based on claims information supplied by the claims administrator. The plan is funded to discharge liabilities as they become due.

The following is a summary of the changes in the claims payable for the health insurance internal service fund for fiscal year 2022:

Fiscal Year	Beginning of Fiscal Year Claims Payable	Current Year Claims	Claims Payments	Balance at Fiscal Year End	Portion of Balance Due and Payable at Year End
2022	\$0	\$10,704,612	\$9,438,444	\$1,266,168	\$1,266,168

Workers' Compensation

The District established a self-insured risk management program for workers' compensation. Transactions related to the plan are accounted for in the General Fund. Claims administration, loss control, and consultant services are provided by a third-party administrator. Liabilities that are considered due and payable as of June 30, 2022, are included in the governmental funds financial statements. Liabilities also include an estimated amount for claims that have been incurred but not yet reported, which was determined based on the District's historical claims experience and an estimate of the remaining liability for known claims. This estimated amount is accounted for in the government-wide financial statements as a long-term liability. An excess coverage insurance policy provides coverage in excess of \$450,000 per occurrence for workers' compensation injuries. It also provides coverage in excess of \$450,000 per employee for occupational disease claims, if they should arise. There were no significant reductions in insurance coverage from the prior year. The amount of settlements has not exceeded insurance coverage in each of the past three fiscal years. The following is a summary of the changes in workers' compensation claims payable for fiscal years 2021 and 2022:

Fiscal Year	Beginning of Fiscal Year Claims Payable	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End	Portion of Balance Due and Payable at Year End
2022	\$1,463,256	\$717,169	\$739,294	\$1,441,131	\$1,116,877
2021	\$1,448,408	\$528,472	\$513,624	\$1,463,256	\$1,133,914

Note 11 - PENSION PLAN AND OTHER POST-EMPLOYMENT BENEFITS

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The

pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov/TRS%20Documents/acfr-2021.pdf> selecting About TRS then Publications then *Financial Reports* or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers, and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the

Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 through 2025.

	Contribution Rates	
	Plan Fiscal Year Ending August 31,	
	2022	2021
Member (Employee)	8.00%	7.70%
Non-employer contributing entity (State)	7.75%	7.50%
District	7.75%	7.50%

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

	Fiscal Year 2022
	Contributions
Employer (District)	\$10,664,295
Employee (Member)	\$21,164,619
Non-employer Contributing Entity	
On-behalf Contributions (State)	\$13,554,308

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate, times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year, reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate

for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.5 percent of the member's salary beginning in fiscal year 2020, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2020. Update procedures were used to roll forward the total pension liability to August 31, 2021. The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions were selected by the Board of Trustees based upon analysis and recommendations by the System's actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the Plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the three year period ending August 31, 2017 and were adopted in July 2018.

Valuation Date	August 31, 2020, rolled forward to August 31, 2021
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term Expected Rate	7.25%
Municipal Bond Rate as of August 2019	1.95%. Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."
Last year ending August 31 in Projection Period (100 years)	2120
Inflation	2.30%
Salary Increases	3.05% to 9.05% including inflation
Ad hoc post-employment benefit changes	None

The actuarial assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2020. For a full description of these assumptions please see the actuarial valuation report dated November 9, 2020

Discount Rate

A single discount rate of 7.25 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 legislative session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 7.25%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2020 are summarized on the next page:

<u>Asset Class ¹</u>	<u>Target Allocation ² %</u>	<u>Long-Term Expected Geometric Real Rate of Return ³</u>	<u>Expected Contribution to Long-Term Portfolio Returns</u>
<u>Global Equity</u>			
U.S.A.	18.00%	3.60%	0.94%
Non-U.S. Developed	13.00%	4.40%	0.83%
Emerging Markets	9.00%	4.60%	0.74%
Private Equity	14.00%	6.30%	1.36%
<u>Stable Value</u>			
Government Bonds	16.00%	-0.20%	0.01%
Absolute Return		1.10%	
Stable Value Hedge Funds	5.00%	2.20%	0.12%
<u>Real Return</u>			
Real Estate	15.00%	4.50%	1.00%
Energy, Natural Resources and Infrastructure	6.00%	4.70%	0.35%
Commodities		1.70%	
<u>Risk Parity</u>	8.00%	2.80%	0.28%
<u>Leverage</u>			
Cash	2.00%	-0.70%	-0.01%
Asset Allocation Leverage	-6.00%	-0.50%	0.03%
Inflation Expectation			2.20%
Volatility Drag ⁴			-0.95%
Expected Return	100.00%		6.90%

¹ Absolute Return includes Credit Sensitive Investments.

² Target allocations are based on the fiscal year 2021 policy model.

³ Capital Market Assumptions come from Aon Hewitt as of August 31, 2021.

⁴ The volatility drag results from the conversion between arithmetic and geometric mean returns.

Changes of Assumptions Since the Prior Measurement Date

There were no changes in assumptions since the prior measurement date.

Discount Rate Sensitivity Analysis

The following table presents the Net Pension Liability of the plan using the discount rate of 7.25 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25 percent) or one percentage point higher (8.25 percent) than the current rate.

	Discount Rate		
	1% Decrease (6.25%)	Current Rate (7.25%)	1% Increase (8.25%)
District's proportionate share of the net pension liability	\$120,456,134	\$55,124,661	\$2,121,006

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2022, the District reported a liability of \$55,124,661 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$55,124,661
State's proportionate share of the net pension liability associated with the District	85,663,766
Total	<u>\$140,788,427</u>

The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2020 thru August 31, 2021.

At August 31, 2021, the District's proportion of the collective net pension liability was 0.2165% which was an increase of 0.0101% from its proportion measured as of August 31, 2020.

For the year ended June 30, 2022, the District recognized pension expense of \$4,920,683. The District also recognized an additional on-behalf revenue and expense of \$342,473 representing for support provided by the State.

At June 30, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$92,249	(\$3,880,820)
Changes of assumption	19,485,491	(8,494,003)
Net difference between projected and actual earnings on pension plan investments		(46,221,313)
Changes in proportion and differences between District contributions and proportionate share of contributions	4,235,410	(6,970,023)
District Contributions subsequent to the measurement date	9,091,526	
Total	<u>\$32,904,676</u>	<u>(\$65,566,159)</u>

Deferred outflows of resources resulting from District contributions subsequent to the measurement date in the amount of \$9,091,526 will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. The net amounts of the District's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year</u>	<u>Pension Expense</u>
2023	(\$7,761,748)
2024	(8,194,439)
2025	(11,747,236)
2026	(14,258,397)
2027	84,342
Thereafter	124,469
	<u>(\$41,753,009)</u>

Note 12 – Defined Other Post-Employment Benefit Plans

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS- Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately-issued

TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <https://www.trs.texas.gov/TRS%20Documents/acfr-2021.pdf>, selecting About TRS then Publications then Financial Reports or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional service centers, and other educational districts who are members of the TRS pension system.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system.

The premium rates for retirees are reflected in the following table.

Retiree Type	TRS-Care Monthly Premium Rates	
	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$135	\$200
Retiree and Spouse	\$529	\$689
Retiree or Surviving Spouse and Children	\$468	\$408
Retiree and Family	\$1,020	\$999

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act.

The following table shows contributions to the TRS-Care plan by type of contributor.

	Contribution Rates	
	Plan Fiscal Year Ending August 31,	
	2021	2022
Active employee	0.65%	0.65%
Non-employer contributing entity (State)	1.25%	1.25%
District	0.75%	0.75%
Federal/private funding remitted by District	1.25%	1.25%

	Fiscal Year 2022
	Contributions
Employer (District)	\$2,493,341
Employee (Member)	\$1,730,642
Non-employer Contributing Entity	
On-behalf Contributions (State)	\$3,673,374

All employers whose employees are covered by the TRS pension plan are also required to pay a surcharge of \$535.

Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2020. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2021. The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. In addition to the Demographic assumptions; salary increases, inflation rates used for members of TRS are identical to the assumptions employed in the August 31, 2021 TRS annual pension actuarial valuation.

The rates of mortality, retirement, termination and disability incidence are identical to the assumptions used to value the pension liabilities of the Teacher Retirement System of Texas (TRS). The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017. The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2018.

The initial medical trend rates were 8.50 percent for Medicare retirees and 7.10 percent for non-Medicare retirees. There was an initial prescription drug trend rate of 8.50 percent for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25 percent over a period of 12 years.

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2020, rolled forward to August 31, 2021
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	1.95% as of August 31, 2021
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Projected Salary Increases	3.05% to 9.05%, including inflation
Healthcare Trend Rates	The initial medical trend rates were 8.50% for Medicare retirees and 7.10% for non-Medicare retirees. There was an initial prescription drug trend rate of 8.50% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 12 years.
Election Rates	Normal Retirement: 65 percent participation rate prior to age 65 and 40% participation rate after age 65. Pre-65 retirees: 25% are assumed to discontinue coverage at age 65.
Ad hoc post-employment benefit changes	None

Discount Rate

A single discount rate of 1.95 percent was used to measure the total OPEB liability. This was a decrease of 0.38 percent in the discount rate since the previous year. Since the plan is a pay-as-you-go plan, the single discount rate is equal to the prevailing municipal bond rate. The single discount rate changed from 2.33 percent as of August 31, 2020 to 1.95 percent, as of August 31, 2021. This change increased the Total OPEB Liability. The following presents the Net OPEB Liability of the plan using the discount rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher, as well as what the Net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower, .95 percent or one percentage point higher, 2.95 percent, than the AA/Aa rate. The source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

Discount Rate Sensitivity Analysis

Discount Rate – The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (1.95%) in

measuring the Net OPEB Liability.

	Discount Rate		
	1% Decrease (0.95%)	Current Rate (1.95%)	1% Increase (2.95%)
District's proportional share of the Net OPEB liability:	\$134,954,013	\$111,880,790	\$93,721,413

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At June 30, 2022, the District reported a liability of \$111,880,790 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$111,880,790
State's proportionate share that is associated with the District	149,895,326
Total	<u>\$261,776,116</u>

The District's proportion of the Net OPEB Liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2020 thru August 31, 2021.

At August 31, 2021, the District's proportion of the collective Net OPEB Liability was 0.2900% which was a increase of 0.0071% from its proportion measured as of August 31, 2020.

Healthcare Cost Trend Rates – The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

	Healthcare Cost Trend Rate		
	1% Decrease	Current	1% Increase
District's proportional share of the Net OPEB liability:	\$90,619,732	\$111,880,790	\$140,407,848

Changes Since the Prior Actuarial Valuation

The single discount rate changed from 2.33 percent as of August 31, 2020 to 1.95 percent, as of August 31, 2021. This change increased the Total OPEB Liability.

Change in Benefit Terms Since Prior Measurement Date

For the year ended June 30, 2022, the District recognized negative OPEB expense of \$3,093,014 and an additional negative on-behalf expense and revenue of \$5,532,282 for support provided by the State.

At June 30, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experience	\$4,816,998	(\$54,158,129)
Changes of assumption	12,392,111	(23,660,716)
Net difference between projected and actual earnings on OPEB plan investments	121,467	
Changes in proportion and differences between the District contributions and proportionate share of contributions	8,390,188	(5,061,756)
District contributions subsequent to the measurement date	2,097,560	
Total	<u>\$27,818,324</u>	<u>(\$82,880,601)</u>

The \$2,097,560 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2022. The net amounts of the District's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30,	OPEB Expense Amount
2023	(\$11,145,340)
2024	(11,148,079)
2025	(11,147,329)
2026	(8,202,330)
2027	(4,215,314)
Thereafter	(11,301,446)
	<u>(\$57,159,838)</u>

Medicare Part D

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended June 30, 2022, 2021, and 2020, the subsidy payments received by TRS-Care on-behalf of the District were \$834,882, 1,197,952, and \$1,096,871, respectively. The information for the year ended June 30, 2022 is an estimate provided by the Teacher Retirement System. These payments are recorded as equal revenues and expenditures in

the governmental funds financial statements of the District.

<u>Fiscal Year</u>	<u>Medicare Part D</u>
2022	\$834,882
2021	\$1,197,952
2020	\$1,096,871

Note 13 - Commitments and Contingencies

The District received significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies and the TEA. Any disallowed claims resulting from such audits would become a liability of the General Fund. However, in the opinion of management, potential disallowed claims, if any, would not have a material effect on the financial statements of the individual fund types included herein or on the overall financial position of the District at June 30, 2022.

From time to time, the District is a defendant in legal proceedings relating to its operations as a school district. In the best judgment of the District's management, the outcome of any present legal proceedings will not have any material adverse effect on the District's financial condition.

FUND BALANCE, JUNE 30	\$82,575,507	\$82,484,715	\$112,521,956	\$30,037,241

See accompanying notes to required supplementary information.

Note 1 - Budgets and Budgetary Accounting

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the General Fund for the fiscal year beginning September 1 (or July 1, if the District has elected to change the start of the fiscal year). The Texas Education Code requires the budget to be prepared not later than August 20 (June 19th for a fiscal year start date of July 1) and adopted by August 31 (June 30 for a fiscal year start date of July 1) of each year. The District's administration determines budgetary funding priorities using a modified zero-based budgeting concept, which is consistent with GAAP. Final budget allocations are determined by the Board, which subsequently establishes a tax rate sufficient to support the approved budget. The annual budget, which is prepared on the modified accrual basis of accounting, must be adopted by the Board at a scheduled meeting after giving ten days public notice of the meeting. The District annually adopts a legally authorized appropriated budget for the General Fund.

The District's administration performs budget reviews three times a year by which budget requirements are re-evaluated and revisions recommended to the Board. The Board may approve amendments to the budget, which are required when a change is made to any one of the functional expenditure categories or revenue object accounts defined by the TEA. Expenditures may not legally exceed budgeted appropriations, as amended, at the function level by fund. Unexpended appropriations lapse at year-end.

Management may amend the budget without seeking Board approval if appropriations are not moved between functions. Therefore, appropriations may be transferred between objects, sub-objects, organizations, programs, and projects without Board approval. During fiscal year 2022, General Fund appropriations and other financing uses were increased by \$5,482,171 and revenues and other financing sources were increased by \$5,391,379.

Note 2 - Variances with Final Budget

General Fund - The variance in the final budgeted revenues versus actual revenues is primarily due to lower than anticipated property tax revenue and a decrease in the Foundation School Program (FSP) state aid for actual student enrollment and attendance.

The variance in the final budgeted expenditures versus actual expenditures is primarily due to positions budgeted but unfilled particularly in teacher and bus driver positions as well as the supplanting of instructional salaries from General Fund to ESSER II and III funds. We also increased the budget in anticipation of renovation projects to accommodate student growth in the northeast portion of the District. Though budgeted, some of the renovation projects were not completed by the end of the 2022 fiscal year.

Contributions as a percentage of covered payroll	3.29%	3.20%	2.91%	1.75%	1.44%

Changes of Assumptions

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2020.

Changes in Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Other Information

Effective September 1, 2019, employers who did not contribute to Social Security for TRS-eligible employees were required to contribute an additional 1.6% of TRS-eligible compensation which nearly doubled the District's contributions into the Plan. Because the District's proportional share of the plan is determined by its proportional share of contributions, the District recognized a corresponding increase in its share of net pension liability.

Changes since the Prior Actuarial Valuation

The single discount rate changed from 2.33 percent as of August 31, 2020 to 1.95 percent, as of August 31, 2021. This change increased the Total OPEB Liability.

Changes in Benefit Terms

There were no changes in the benefit terms since the prior measurement date.

Non-Major Governmental Fund

Special Revenue Funds

The Special Revenue Funds are used to account for the District's Child Nutrition operations, School Activity funds, and all non-major federal, state and locally funded grants. These grants are awarded to the District with the purpose of accomplishing specific educational goals. Grants included in the Special Revenue Funds are described below.

Elementary and Secondary Education Act (ESEA), Title I, Part A - Improving Basic Programs

Funds are used to provide opportunities for children to acquire the knowledge and skills contained in the challenging State content standards and to meet the State performance standards developed for all children.

Individuals with Disabilities Education Act (IDEA), Part B - Formula

Funds are used to operate educational programs for children with disabilities.

Individuals with Disabilities Education Act (IDEA), Part B - Preschool

Funds are used for preschool children with disabilities.

Child Nutrition Fund

Accounts for all transactions in the District's Child Nutrition program. This includes the federally funded National School Lunch program, breakfast and supper programs.

Career and Technical Education - Basic

Funds are used to provide instruction related to career and technical education and to develop new and/or improved career and technical education programs for paid and unpaid employment.

Elementary and Secondary Education Act (ESEA), Title II, Part A – Teacher and Principal Training and Recruiting

Funds are used to improve student achievement through improving teacher and principal quality and increasing the number of highly qualified teachers, principals and assistant principals in schools to hold districts accountable for improving student academic achievement.

Elementary and Secondary Education Act (ESEA), Title III, Part A - English Language Acquisition and Language Enhancement

Funds are used to improve the education of limited English proficient children by assisting the children in learning the English language and meet challenging State academic content and student academic achievement standards.

21st Century Community Learning Centers

Funds are used to provide students and their families with out-of-school time services that offer an array of enrichment activities that complement regular academic programs and assist students in meeting academic standards in core subjects (math, reading, science, social studies).

Non-Major Governmental Fund

Special Revenue Funds (*continued*)

Medicaid Administrative Claiming Program

Funds are used to enhance, improve, or expand the level and quality of health and medical services provided to students.

Elementary and Secondary School Emergency Relief Fund (ESSER) II of the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act

Funds are used to account for federal stimulus ESSER II funds granted to LEAs through the CRRSA Act to support LEAs' ability to operate, instruct its students, address learning loss, prepare schools for reopening, test, repair, and upgrade projects to improve air quality in school buildings during the coronavirus pandemic. (ALN 84.425D) (Education Stabilization Fund)

Federally Funded Special Revenue Funds

Funds are used for summer school programs for limited English proficient (LEP) students who will be eligible for admission to kindergarten and first grade at the beginning of the next school year. Funds are used for providing direct child care to eligible teen parents and staff of Spring ISD. Also included are funds to improve students' academic achievement by providing all students with access to a well-rounded education, improve school conditions for student learning, and improve the use of technology.

State Supplemental Visually Impaired (SSVI)

Funds received from the State Department of Education, passed through Region IV Educational Service Center, to provide orientation and mobility (O&M) services for students with visual impairments.

Advanced Placement Incentives

Funds are used to provide reimbursement for Advanced Placement teacher training approved by the College Board. Funds are also awarded to specific campuses based on student scores on Advanced Placement examinations and are to be used for enhancement of academic programs at awarded campus.

State Instructional Materials Fund

Funds are used for the purchase of instructional material, technological equipment, and technology-related services.

State Funded Special Revenue Funds

Funds are used towards Reading Academies to increase the teachers' knowledge, understanding, and systematic use of effective, research-based, and scientifically validated reading instruction methods for students. Funds are also used towards the Math Innovation Zones program to improve academic outcomes in math for Pre-K through 8th grade to ultimately increase 8th grade Algebra I preparedness and participation. Also included are other state funded special revenue funds that have not been specified above.

School Activity Funds

Accounts for transactions of school sponsored activities benefiting students and staff. This includes fund raising activities, vending sales, incentive programs, and corporate and private donations.

Non-Major Governmental Fund

Special Revenue Funds (*continued*)

Locally Funded Special Revenue Funds

Locally funded special revenue funds not specified above.

Locally Funded Scholarships

Funds are awarded to graduating high school seniors in recognition of their capacity to lead and serve, and their commitment to making a significant impact on their schools and communities.

Career and Technology Education (CTE) Advisory Board Grants

Funds are used to expand and improve the CTE program.

Spring Education Foundation Grants

Funds awarded by the Spring Education Foundation to provide support for teachers and students to promote the district's mission of providing every student with a quality education.

Capital Project Funds

Funds are used for a capital project, which is a governmental fund that must be used for projects financed by the proceeds from bond issues or for capital projects otherwise mandated to be accounted for in this fund. The capital projects fund uses the modified accrual basis of accounting

SCHEDULE OF COMPENSATORY EDUCATION PROGRAM
AND BILINGUAL EDUCATION PROGRAM EXPENDITURES
June 30, 2022

Exhibit F-2

Data Codes	Section A: Compensatory Education Programs	Responses
AP1	Did your LEA expend any state compensatory education program state allotment funds during the district's fiscal year?	Yes
AP2	Does the LEA have written policies and procedures for its state compensatory education program?	Yes - Spring ISD State & Federal Grants Manual Section 2.1.5
AP3	List the total state allotment funds received for state compensatory education programs during the district's fiscal year.	\$43,643,041
AP4	List the actual direct program expenditures for state compensatory education programs during the LEA's fiscal year. (PICs 24, 26, 28, 29, 30, 34)	\$25,652,568
Data Codes	Section B: Bilingual Education Programs	Responses
AP5	Did your LEA expend any bilingual education program state allotment funds during the LEA's fiscal year?	Yes
AP6	Does the LEA have written policies and procedures for its bilingual education program?	Yes - Spring ISD State & Federal Grants Manual Section 2.1.6
AP7	List the total state allotment funds received for bilingual education programs during the LEA's fiscal year.	\$5,388,512
AP8	List the actual direct program expenditures for bilingual education programs during the LEA's fiscal year. (PICs 25, 35)	\$3,109,763

STATISTICAL
SECTION

(This page intentionally left blank)

Statistical tables are used to provide detailed data on the physical, economic, social and political characteristics of a government. They are intended to provide financial report users with a broader and more complete understanding of the government and its financial affairs than is possible from the basic financial statements. The information is provided in five categories.

Financial Trends Information

Intended to assist users in understanding and assessing how a district's financial position has changed over time.

Revenue Capacity Information

Intended to assist users in understanding and assessing the factors affecting the District's ability to generate its own-source revenues.

Debt Capacity Information

Intended to assist users in understanding and assessing the District's debt burden and its ability to issue additional debt.

Demographic and Economic Information

Intended to assist users in understanding the socioeconomic environment within which the District operates and to provide information that facilitates comparisons of financial statement information over time and among other school districts.

Operating Information

Intended to provide contextual information about the District's operations and resources to assist readers in using financial statement information to understand and assess the District's economic condition.

The District's statistical tables usually cover ten fiscal years and often present data from outside the accounting records. The source of information is from District data found in this report, unless indicated otherwise. The tables are unaudited due to the nature of the information contained therein.

(1) Tax rates are per \$100 of actual taxable value.

Source: Harris County (Texas) Appraisal District provides the District's tax office with appraised values for properties within the District's taxing authority. Assessed value equals appraised value. Assessed value less exemptions equals actual taxable value. Actual taxable value times the tax rate set by the District's Board of Trustees each fall equals the tax levy.

(1) Assessed value equals appraised value. Assessed value less exemptions equals actual taxable value. The beginning actual taxable value net of adjustments times the tax rate set by the District's Board of Trustees each fall equals the total net tax levy. The net tax levy for prior years reflects ongoing adjustments applied to that year's tax levy.

Source: Harris County (Texas) Appraisal District provides the District's tax office with appraised values for properties within the District's taxing authority.

Spring Independent School District direct debt			<u>719,682,096</u>
Total direct and overlapping debt			<u><u>\$1,419,681,959</u></u>

Note: An individual resident of Spring Independent School District resides in only one utility district. Therefore, the total debt applicable to the individual resident is significantly less than the sum of direct and overlapping debt shown.

- (1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. The percentage of overlapping debt is estimated using actual taxable property values. Percentages were estimated by determining the portion of the overlapping taxing authority's actual taxable value that is within the District's boundaries and dividing it by the overlapping taxing authority's total actual taxable value.

Portable Buildings ¹										
	148	148	148	147	147	150	150	150	150	150

¹ The District utilized portable buildings providing classrooms and restrooms in schools where enrollment exceeded capacity.

² From July 2013 to June 2015 Clark Primary and Clark Intermediate were considered one school, Clark Elementary.

³ This building was originally for Support Services and was renovated in 2015 to house the District's Disciplinary Alternative Education Program for grades 6th through 12th.

⁴ Roberson moved to 12430 Veterans Memorial Dr. in August 2019.

⁵ Early College Academy moved from portable buildings to 14450 T.C. Jester Blvd. in August 2016, then relocated to LoneStar College-North Harris campus in August 2019.

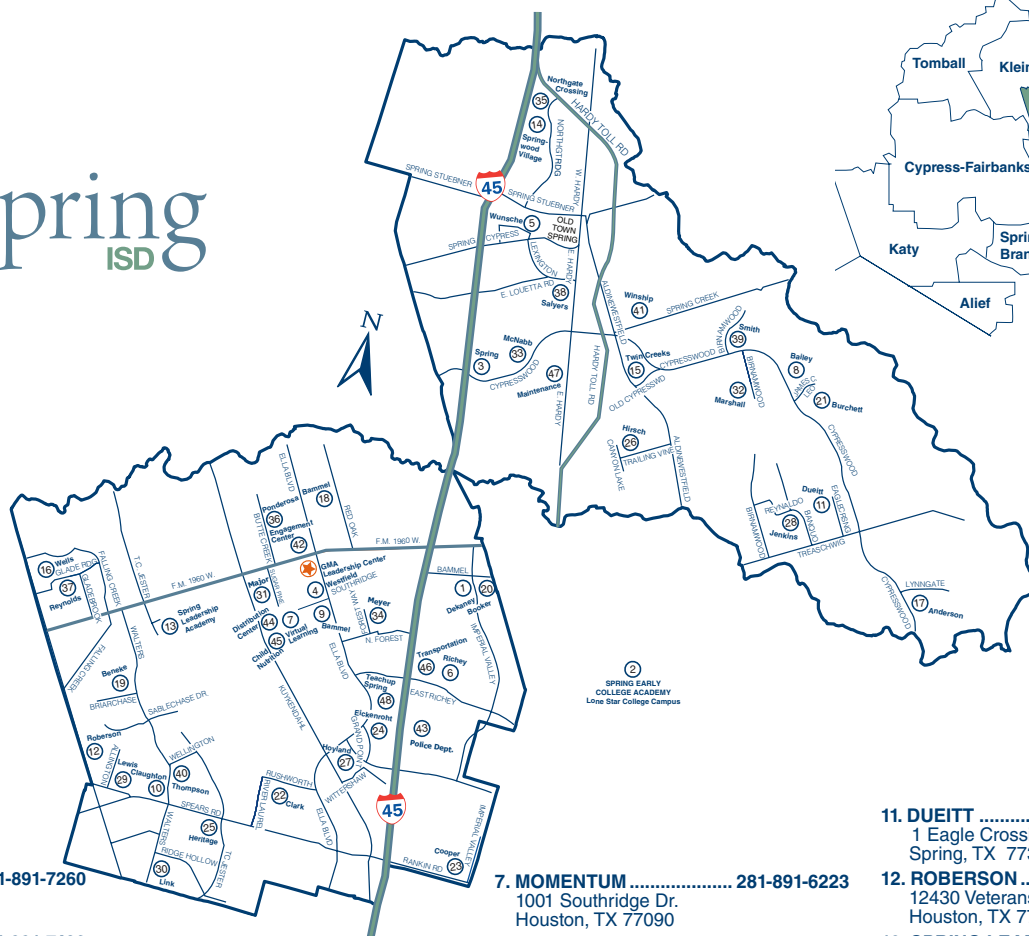

⁶ Springwoods Village opened at 1120 Crossgate Blvd. in August 2019.

⁷ Spring Leadership Academy opened at 14450 T.C. Jester Blvd. in August 2019.

⁸ Spring and Andy Dekaney Ninth-Grade Centers opened in September 2020

⁹ Westfield Ninth-Grade Center opened in January 2021.
