Elementary Student Transportation Request Form

2016-17

Transportation is a privilege offered free of charge to students who live 1.5 mile or more from their zoned campus of attendance or who live in an area that is designated as qualifying for transportation under the hazardous condition clause as defines in Spring Board Policy CNA (Regulation)

Transportation privileges are dependent upon the student observing the established bus rider safety rules found in the Spring ISD Student Handbook and Code of Conduct. Failure to observe the bus rider safety rules will result in corrective action which includes suspension of transportation services for repeated violations of bus safety rules.

Pre-K and Kindergarten students **MUST** be met at the bus stop by an approved person or get off with their approved sibling in first grade or higher. Approved persons must provide (either verbally or visually) the campus assigned PIN number for the student in order for the student to be released from the bus. Students who cannot be released to an approved person will be returned to the school for the parent or guardian to pickup.

For additional information regarding transportation services, refer to the 2016-2017 Spring ISD Student Handbook and Code of Conduct, the Spring ISD website, or contact the Spring ISD Transportation Department at (281) 891-6490.
