

# Bulk Up Your Lunch Box!

WE HAVE YOUR SIDES!

The goal of the Child Nutrition Department is to make sure no student goes hungry. We understand some students prefer food from home, and that's okay! However, we want students and parents to utilize our program resources as much as possible.

All schools already serve breakfast for free but with the expansion of CEP, students at the 31 participating campuses will also get free lunch, regardless of income.

Students who pack a lunch can still come through the cafeteria line and grab 3 items for free: a hot or cold fruit, vegetable, and a milk!

By promoting this concept we hope to take some of the burden of packing lunches and provide ready-to-eat sides to students and "bulk up" their lunch.
