BUILD COLLECTIVE WILL

“Nothing about us without us!”

Candidates running for an office will say they support education, but may not support public education when asked specific questions or when they file bills.

Below are QR codes for organizations that advocate for students and public schools everyday, not just during elections.

Note: Tracy Fisher, Legislative Action Committee (LAC) wrote in a 4/9/21 email that “House members have received lots of campaign money from charter PACs and this session. has at least 35 charter bills."

QR codes were provided by Dax Gonzalez (TASB).
