

Spring Independent School District

16717 Ella Blvd. • Houston, Texas 77090 • Tel. 281.891.6000

Spring ISD Parent/Guardians:

If your student is seeking to attend a school in 2022-23 for which they are not zoned, the window to submit a transfer application is now open at springisd.org/transfers.

The district offers different transfer types depending on the situation. Regardless of transfer type, transportation will NOT be provided to students. More information on each of the transfer types is available at springisd.org/transfers.

Just a reminder, students attending the district's schools of choice (Roberson Middle School, Spring Leadership Academy, Carl Wunsche Sr. High School, P-TECH at Dekaney High School, and Spring Early College Academy) are NOT considered transfer students since these schools do not have attendance boundaries. Students accepted into these programs receive transportation.

This year, students in good standing as it relates to academics, attendance, and behavior can be automatically renewed for the 2022-2023 school year. Also, students who have maintained all of the student transfer requirements for the 2021-2022 school year may be eligible for an automatic renewal of their transfer without additional requirements. Campus principals are currently in the process of evaluating students with school transfers.

Students who have not maintained the requirements for a student transfer will be assessed and provided an opportunity for improvement. However, if the campus principal determines that the student has not met the transfer requirements, the student will be returned to their regularly zoned campus. Students in 5th and 8th grades will be need to submit new transfer application requests for middle school or high school transfer request.

Should you have any questions about the online transfer application, please reach out to your student's current principal.

Applications for transfers will be accepted **through Saturday, May 21** and will be processed as submitted. Parents should receive a notification if the transfer request is approved, denied or waitlisted within 10 school days from when submitted. Notification will be sent via email or phone call.

Please make sure we have an updated email address and phone number for you in the Home Access Center.
